DETAILED ACTION

Response to Arguments

Regarding the 112 rejections

Examiner acknowledges amendments to claims 6 and 7, thus the previous 112 second paragraph rejection is withdrawn.

Regarding Spence

Applicant's arguments, see remarks, filed 3/8/07, with respect to Spence have been fully considered and are persuasive. The 35 USC 102(e) rejections of claims 1, 5-7, 11, 14 and 24 have been withdrawn.

Regarding the 35 USC 103 rejections

Applicant's arguments, see remarks, filed 3/8/07, with respect to the combination of Spence and Ortiz, Spence and Ahmadi, Spence and Gabbay and Spence and Northrup have been fully considered and are persuasive. The 35 USC 102(e) rejections have been withdrawn.

Allowable Subject Matter

Claims 1-26 are allowed. The following is an examiner's statement of reasons for allowance:

The prior art, alone or in combination fails to teach each and every limitation as set forth by the claims. In particular, Spence fails to teach wherein an adjustable member is configured to adjust the dimensions of the implantable device over a variable range of functional dimensions. The configuration of Spence allows the adjustable member only to tighten or loosen the implantable device, and is not capable of adjusting

the dimensions of the implantable device over a range of functional dimensions.

Therefore, dependent claims 2-26 are subsequently allowed as being dependent from an allowable independent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
